EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jeff Schmidt on 1 July 2003.

The application has been amended as follows:

Cancel claims 8-13.

REASONS FOR ALLOWANCE

2. Claims 1-7 and 14 are allowed. The following is an examiner's statement of reasons for allowance: Applicant's arguments regarding the rejection over Kusase, Kreuzer and Rich are persuasive. In particular, it is argued that Kreuzer's conductors/strands do not alternate between inner and outer layers. This is persuasive since it appears Kreuzer's conductors/strands, e.g., 40 (Fig.1), are wound in at least one loop about the poles (c.1, lines 35-40). Thus, while continuous, the conductors/strands do not alternate between an inner and outer layer as claimed by applicant.

Regarding the remaining prior art, Kato teaches an electric machine with continuous windings (23-28; Fig.5) arranged in a four-layer pattern. However, the windings do not alternate between an inner layer and an outer layer, but rather between a first and second layer, or between a third and fourth layer (Fig.5).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Burton S. Mullins whose telephone number is 305-7063. The examiner can normally be reached on Monday-Friday, 9 am to 5 pm. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nestor Ramirez can be reached on 308-1371. The fax phone numbers for the organization where this application or proceeding is assigned are 305-1341 for regular communications and 305-1341 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 308-0956.
